Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Election/Restrictions***

1. This application contains claims directed to the following patentably distinct species:
  - A. The species of claims 1-27 and 46-51, drawn to an apparatus for participating in a request to establish a wireless communication session and for participating in wireless communication of information for use in deciding whether said wireless communication session will be established.
  - B. The species of claims 28-35, drawn to an apparatus for supporting a wireless communication session with a further apparatus on a first channel and monitoring a second channel to determine whether information about said session has been transmitted by a still further apparatus.
  - C. The species of claims 36-45, drawn to an apparatus for supporting a first wireless session with a further apparatus on a first channel and, during said first session, for transmitting on a second channel information about said first session.
2. The species are independent or distinct because:

Species A has, for example, the limitation for participating in a request to establish a wireless communication session and for participating in wireless communication of information for use in deciding whether said wireless communication session will be established, which is not required for the other species.

Species B has, for example, the limitation monitoring a second channel to determine whether information about said session has been transmitted by a still further apparatus, which is not required for the other species.

Art Unit: 2617

Species C has, for example, the limitation during said first session for transmitting on a second channel information about said first session, which is not required for the other species.

3. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim appears to be generic.

4. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

5. The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103 (a) of the other invention.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
